

Introduction to Bee Keeping

Course Requirements

It is essential that learners are appropriately dressed for the duration of this course and Myerscough College has personal protective equipment (PPE) that learners are able to use.

Should you wish to provide your own equipment however, you will require:

- Heavy Duty Trousers
- Wellington Boots
- Latex Gloves (washing up type)
- One-piece Suit and Hat (similar to those used by painters/decorators)

Alternatively, specialised Bee Keeper suits, hats and veils may be purchased, and we recommend EH Thorne (Beehives Ltd) as a reputable supplier of these. They can be contacted on 01673 858555 or at www.thorne.co.uk for online sales.

Please be advised that whilst every effort will be made to protect learners from bee stings, if you have ever suffered an adverse reaction to insect stings please seek medical advice prior to enrolling on the course.
