

“Myerscough offered me some fabulous work experience at various rally events both at home and abroad.”

My success

From student to event operations for Motorsport UK **Nicky Hart**

I began my Myerscough journey at Further Education level before moving on to the Foundation Degree and then the Honours Degree Top-up in Motorsport Management and Logistics. After much hard work, and some ups and downs, I graduated with First Class Honours in 2018.

During my time at Myerscough, I tried to learn as much as I could from the expert tutors and take advantage of the excellent facilities and opportunities to help me gain a real knowledge of the industry. This involved many rainy weekends stood in a wet forest marshalling or rolling under a Nissan Micra, as well as some fabulous work experience at various rally events both at home and abroad, where I was able to gain valuable industry contacts.

I started my role in the events team at Motorsports UK just a few weeks after handing in my last piece of university work and within three weeks of starting I had the best view in The Silverstone Wing for the British Grand Prix - a very surreal experience!

My current role involves being a part of the team that makes events such as the British Grand Prix, Rally GB and the British Rally Championship happen. I help ensure that all the necessary people and equipment are in the right place at the right time and that there are plenty of marshals to go around and all the right people get the information they need.

Lots of long days and hard work is required to make these things happen but I'm living my dream job!
