

Level:	Intermediate Apprenticeship (Level 2)
Typical Duration:	12 Months
Delivery Model:	Work-based
Delivery Location:	North West Only
Start Date:	Throughout the year

Introduction to the Programme

This programme covers a range of cleaning and environmental services skills and related practices. The objectives of the course are to ensure the development of practical skills, related background knowledge including health and safety issues and procedures.

Duration

This apprenticeship will typically take 12 months to complete. The length may be altered if the apprentice has already gained knowledge and skills working in the land-based engineering sector.

Entry requirements

Minimum of 4 GCSEs at grade D/3 including maths and English OR a Vocational qualification Level 1, plus GCSE grade D/3 in both maths and English.

NB: English & maths Functional Skills Level 1 will be accepted as an alternative to GCSEs.

Costs

Costs will be dependent on several factors such as age of apprentice and size of employer. The cost may be altered if the apprentice has already gained knowledge and skills working in the land-based engineering sector. Please contact us for more information.

Delivery Location

Delivery is work-based using blended learning technologies on the employer's premises. There is an expectation that 20% of the working week will be off the job training, which is a legal requirement.

Topics Covered

Throughout the programme, apprentices will work towards learning a selection of the following units:

- Mandatory Group A –
 - Reduce risks to health and safety
 - Communicate effectively in the workplace
 - Develop yourself in the job role
- Mandatory Group B (minimum of 2 credits) –
 - Work with others and follow reporting procedures (2 credits)
 - Work individually and follow reporting procedures (3 credits)
- Optional Group C (minimum of 3 credits) –
 - Clean and maintain external surfaces and areas (4 credits)
 - Deal with routine waste (3 credits)
 - Perform street cleansing manually (3 credits)
 - Perform street cleaning mechanically (4 credits)
- Optional Group D (minimum of 8 credits) –
 - Levelling and preparing sites for landscaping (4 credits)
 - Preparing ground for seeding and planting (4 credits)
 - Establishing plants and/or seeds in soil (4 credits)
 - Identify the health and maintain the condition of general amenity turf (5 credits)
 - Establish decorative amenity areas (6 credits)

Assessment

You will be assessed throughout the programme. These grades will be aggregated into one overall qualification. The grading applies to the overall qualification and all elements must be passed to achieve the qualification

Progression

Apprentices successfully completing the Intermediate Apprenticeship have opportunities to progress within the industry by continuing onto the Advanced Apprenticeship in Facilities Management or other Further Education courses.

Possible Careers/jobs Typical jobs apprentices will be able to progress onto on completion of the Intermediate Apprenticeship will depend on the qualifications and experience gained.

How to apply

In order to start the enrolment process we need an **Online Application Form** to be completed & submitted. You can do this by contacting the Employer Services Team.
