

“  
Racing is a massive part of the equestrian industry and I would encourage anyone to get involved.”

## My success

### From student to jockey **Charlotte Jones**

I graduated from Myerscough with a first class BSc(Hons) degree in Equine Science having previously completed the Level 3 Extended Diploma in Equine Studies.

During my time at Myerscough, I was able to gain experience at James Moffat Racing, where I eventually secured full time employment as a jockey after gaining my conditional licence after graduating.

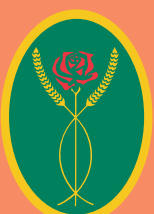

Over the last five years I have ridden 11 winners. These have included victories at two Grade 1 tracks (Aintree and Haydock) and riding betting outsiders to victory at the two feature races of the year in 2017 at my local Cartmel Racecourse.

Racing is a massive part of the equestrian industry and I would encourage anyone with a passion for horses to get involved in this area as it can bring so many thrills.

I feel my time at Myerscough provided me with key skills, knowledge and, most importantly, a good attitude in preparation for working in the industry.

As equestrians, we are in a tough sport which requires guts and physically hard graft day in day out. The chance to be successful does not come easy but the opportunities I grabbed with both hands whilst at Myerscough are what has got me to where I am today.
