

Dear student,

I appreciate that you are keen to know when you will receive results for your courses this year. Due to the unprecedented times and the different way grades have been awarded, many Awarding Organisations have not yet said when the results will be available.

When the college receives results, they will show on your student MyPage.

The table below shows the arrangements that we know for our college Awarding Organisations.

Please keep checking your MyPage regularly and we will update you when we get more information,

I hope you are keeping safe and enjoying your summer,
