INSPIRING EXCELLENCE

Land-based Further Education courses in Penrith, Cumbria

Full time school leaver courses in Agriculture, Animal Studies and Arboriculture

Agriculture apprenticeships across Cumbria

MyWelcome

*Myerscough College in partnership with
Ullswater Community College (UCC)*

In partnership with Ullswater Community College, we offer Agriculture, Animal Studies and Arboriculture options. Further information about these programmes is detailed in this booklet.

Students studying Agriculture and Animal Studies will be based at the UCC campus in Penrith, two days each week, making use of their excellent teaching facilities. Additional work experience will be completed at local employers within the Penrith, Eden and wider Cumbrian region.

Transport will then be provided for a further day each week of practical lessons at Myerscough College's Preston Centre. Here students will make use of the fantastic practical resources on site.

Students studying Arboriculture will be full time at the UCC campus in Penrith.

Alison Robinson, Chief Executive & Principal of Myerscough College, said: *"Myerscough College wants to see land-based education flourish in Cumbria, and we have come into the process having been invited after a local Cumbrian solution was not possible within the timeframe."*

"We are delighted to be working with Ullswater Community College and we believe that this continuity of provision will provide clarity for new students and a number of students progressing with their studies and will be a platform for the continuation of land-based education within Penrith, which is so critical for both young people and employers in the Cumbrian community."

Alison

Stephen Gilby, Headteacher of Ullswater Community College, said: *"Newton Rigg College has been an important destination for significant numbers of our pupils and we are very happy to be working with Myerscough, Dr Hudson and local stakeholders on this innovative solution."*

"Ullswater Community College is at the heart of the community in Penrith and we firmly believe that this partnership can be built upon to sustain land-based education in Penrith, Eden and Cumbria long into the future."

Stephen

Your comprehensive online information source

We hold regular **Course Advice Events** throughout the year (both Virtual and on campus) – please check page 11 of this brochure or the **'What's on'** section of our website for more details.

Our Offer, based in Penrith

In partnership with Ullswater Community College, we will be offering Agriculture, Animal Studies and Arboriculture options. Further information about these programmes is detailed in this booklet.

Students will be based at the UCC campus in Penrith, two days each week, making use of their excellent teaching facilities. Additional work experience will be completed at local employers within the Penrith, Eden and wider Cumbrian region.

Transport will then be provided for a further day each week of practical lessons at Myerscough College's Preston Centre. Here students will make use of the fantastic practical resources on site.

We also deliver Agriculture apprenticeships from several Auction Marts across Cumbria.

Resources for Agriculture

- A purpose built Agriculture and Countryside 'Rural Skills' teaching centre with state-of-the-art facilities
- Myerscough Farms (two farms totalling more than 300 hectares of farm and woodland)
- Livestock and cereal enterprises (including 220 commercial Holstein dairy cows, 150 dairy heifers, 1000 ewes, 1800 fattening lambs, a beef enterprise and 40 hectares of cereals)
- A new £5m Food, Farming, Innovation and Technology Centre – incorporating AfiFarm 5.2 Dairy technology and Growsafe feeding technology
- Off-road driving course for developing skills with tractors, trailers, 4WD vehicles and quadbikes

Resources for Arboriculture

Students studying Arboriculture will be full time at the UCC campus in Penrith. Here they will have access to:

- Woodland and trees within the campus
- Access to specialist arboriculture equipment and chainsaws
- Close proximity to the Lake District National Park and the North Pennines AONB

Resources for Animal Studies

Myerscough is home to a purpose built Animal Studies Centre which houses the following facilities:

- An aquarium of tropical and cold water amphibians and crustaceans
- A specialised herpetology room housing species from all continents, covering a range of habitats
- Cattery – working in partnership with Blue Cross
- New lemur enclosure
- A block of nine day-kennels
- A purpose built Sulcata Tortoise enclosure
- Farmyard animals, including goats, sheep, geese, ducks, alpacas and emus
- A fully equipped grooming parlour and canine hydrotherapy unit
- Specialist aviaries housing birds from around the world
- A range of commonly kept and exotic species of rodents (including Gambian pouched rats and sugar gliders)
- Free range poultry paddocks housing a large variety of species
- Specialist area dedicated to rabbits and guinea pigs containing spacious enriched pens with a variety of breeds including British and continental giant rabbits and Peruvian Guinea Pigs
- Ferrets housed in purpose built enclosure with indoor and outdoor runs
- Scottish Wildcat enclosure (part of national conservation programme)

Apprenticeships

We also deliver Level 2 General Farm worker and Level 3 Livestock Unit Technician Apprenticeships from several Auction Marts across Cumbria.

Staying ahead of the herd

There is currently a significant demand for highly trained and well-educated professionals to enter the agriculture industry. In recent years fewer people have been attracted to careers in agriculture and a skills shortage has developed.

There has been a significant increase in the demand for skilled staff which has been fuelled by the increasing awareness that food production, farming, tourism, the environment and rural affairs are all interconnected.

This has created a need for motivated and technically competent people who understand the requirements of agriculture and its related industries.

Our courses in agriculture will help prepare you for a career in the industry, by combining relevant background skills with knowledge of livestock technology and business enterprise.

The expertise of the agriculture team at Myerscough College reflects this. The team consists of agriculturalists with a range of specialisms, including dairy, beef, sheep and crops.

Career Opportunities

Past students have gone on to employment as general farm workers or assistant farm managers, enterprise managers, shepherds and tractor drivers/contractors, agricultural advisers and herd managers. Many job opportunities also exist within the allied industries and students have progressed to work with feed companies, breeding companies, animal health specialists, finance specialists and machinery dealerships.

Agriculture

City and Guilds Level 2 Technical Certificate

The Level 2 Technical Certificate is an excellent introductory programme for students wishing to further their knowledge of agriculture.

It is extremely popular with school leavers and provides practical knowledge and experience, combining this with an academic study of the principles of agriculture.

It gives students a broad understanding of agriculture, with a view to progressing to one of our Level 3 programmes or to start work in the industry

Students undertake units which cover health and safety for land-based industries, agricultural power units and machinery operations and a work experience module within the agriculture industry.

Additional units provide an overview of the agriculture sector, focusing on animal and plant physiology, farm animal husbandry and production, crop husbandry and practical farm estate skills (fencing, hedgelaying, walling and grounds maintenance).

Work experience is a mandatory module that takes place one day per week within the local area to Ullswater Community College. It supplements the skills learned at College and is key to gaining employment in the industry.

It is important that students find a suitable work placement before they start the programme. Further information about placements will be provided following your application.

Course Details

Location
Ullswater Community College and Myerscough College Preston.

Duration
1 year full-time.

Level
Intermediate.

Academic Entry Requirements
Students are normally aged 16 or over and have some level of achievement in GCSE or relevant Further Education qualifications and have gained a minimum of grade 3 (D) in two or more subjects, including English.

Additional Course Requirements
A strong interest and commitment to agriculture must be demonstrated.

Assessment
Practical assessment, assignments, coursework and exams.

Progression
Level 3 programmes in Agriculture.

Agriculture

City and Guilds Level 3 Suite

The Level 3 Advanced Technical qualifications are popular options for school leavers and young adults. They combine practical-based skills with academic theory, classroom study and external visits.

Students will initially enrol on the City and Guilds Level 3 Advanced Technical Diploma in Agriculture (540) before progressing on to the second year Level 3 Advanced Extended Technical Diploma in Agriculture (1080). This qualification is equivalent to three A Levels and will provide the entry requirements for progression to Higher Education University Degrees.

Students will learn about topics such as the land-based machinery operations, livestock husbandry, crop production, principles of plant and soil science, health and safety, land-based power units, business management, beef production and estate skills.

In the second year, further topics will be covered such as dairy production, sheep production, farm animal health and nutrition, grassland management, telescopic forklift operations, farm animal science, pollution and waste control and diversification and new business initiatives within the sector.

Work experience is a mandatory module that takes place one day each week in Cumbria. It supplements the skills learned at College and is key to gaining employment in the industry. It is important that students find a suitable work placement before they start the programme. Further information about placements will be provided following your application.

Duration
1 year full-time
Level 3 Advanced Technical Diploma in Agriculture (540).
2 years full-time
Level 3 Advanced Extended Technical Diploma in Agriculture (1080).

Level
Advanced.

Academic Entry Requirements
Students are normally aged 16 or over and hold an English GCSE at 4/C plus a

minimum of four others at 4/C (depending on units studied), including Maths and Science. Equivalent Level 2 qualifications will be considered.

Additional Course Requirements
A strong interest and commitment to agriculture must be demonstrated.

Assessment
Practical assessment, assignments, coursework and exams.

Progression
Higher Education Degree courses.

Exploring the animal kingdom

Britain is well regarded as a nation of animal lovers, from companion pets to large animal collections.

This has resulted in the development of a multi-million pound industry, ranging from well-known national pet feed companies to pet stores, catteries, kennels and numerous other businesses which provide for the needs of animals.

If you care about animals and have a deep interest in their health and wellbeing, Myerscough provides an excellent opportunity for you to further your studies.

Working with animals is highly rewarding. It does however require long hours, alongside a genuine passion and dedication.

Our courses cover a wide range of skills, and provide the opportunity to care for companion animals such as dogs, cats, rabbits and ferrets, farm animals and ponies and more exotic species, such as geckos, uromastyx, lemurs, chameleons and a wide range of invertebrates.

Career Opportunities

There are many diverse businesses and opportunities within the sector. These include pet shops, animal boarding establishments, animal sanctuaries, animal training (entertainment, education, working animals such as uniformed/security dogs), pet animal grooming, animal welfare charities, animal care services (such as animal hydrotherapy and dog walkers/sitters), zoos and wildlife parks (including wildlife rehabilitation), animal visitor attractions and animal related public services (such as dog/animal wardens).

Animal Studies

City and Guilds Level 2 Technical Certificate

The Level 2 Technical Certificate is an excellent introductory programme for students wishing to further their knowledge of animal studies.

It is extremely popular with school leavers and provides practical knowledge and experience, combining this with an academic study of the principles of animal care.

It gives students a broad understanding of animal care, with a view to progressing to one of our Level 3 programmes or to start work in the industry

Students learn about a wide range of popular species and gain an overview of the animal care industry.

Subjects include animal health and welfare, animal feeding and accommodation, animal biology, caring for farm livestock, British wildlife species and habitats, health and safety in the animal industry.

Work experience is a mandatory module that takes place one day per week within the local area to Ullswater Community College. It supplements the skills learned at College and is key to gaining employment in the industry.

It is important that students find a suitable work placement before they start the programme. Further information about placements will be provided following your application.

Course Details

Location Ullswater Community College and Myerscough College Preston.	Additional Course Requirements A strong interest and commitment to animal care and welfare must be demonstrated. Students are expected to have completed a minimum of one-week work experience in the animal care industry.
Duration 1 year full-time.	
Level Intermediate.	
Academic Entry Requirements Students are normally aged 16 or over and have some level of achievement in GCSE or relevant Further Education qualifications and have gained a minimum of grade 3 (D) in three or more subjects, including English.	Assessment Practical assessment, assignments, coursework and exams.
	Progression Level 3 programmes in Animal Management.

Animal Studies

City and Guilds Level 3 Suite

The Level 3 Advanced Technical qualifications are popular options for school leavers and young adults. They combine practical-based skills with academic theory, classroom study and external visits.

Students will initially enrol on either a one-year 6 unit (360) Advanced Technical Certificate or 9 unit (540) Advanced Technical Diploma before progressing on to a second year with either an additional 6 or 9 units. The complete 720 Diploma is broadly equivalent to two A Levels while the complete 1080 Diploma is broadly equivalent to three A Levels, both idea for progression to Higher Education University degrees.

Students will learn about topics such as animal feeding and nutrition, animal health and husbandry, animal accommodation, breed development and welfare, animal handling techniques, animal biology and animal behaviour and communication. Optional modules include small animal rehabilitation, animal training, exotic animal health and husbandry.

In the second year, further topics will be covered such as business management, kennel and cattery management, pet store design, wildlife and ecology conservation, animal nursing, pet allied services and estate skills. Optional module choices include zoological collections, wildlife rehabilitation and farm livestock management.

Work experience is a mandatory module that takes place one day each week in Cumbria. It supplements the skills learned at College and is key to gaining employment in the industry. It is important that students find a suitable work placement before they start the programme. Further information about placements will be provided following your application.

Tree care and management

Arboriculture involves all aspects of the care and management of trees and woodlands, so that people and trees can co-exist in a sustainable environment.

The arboriculture industry is rapidly expanding, fuelled by growing awareness of the need for correct tree management and heightened public interest in environmental issues.

Advances in tree biology, equipment and techniques have resulted in fundamental changes to traditional tree work practices and arboriculture has moved away from the ‘tree surgery’ approach to ‘tree care’ approach

Myerscough College works closely with employers and industry organisations to ensure that our students have the necessary skills and expertise to meet the requirements of this growing industry. Our students are highly sought after, with many now working as professionally qualified arborists in highly rewarding positions throughout the industry.

Myerscough College really is at the ‘cutting edge’ of developments in arboriculture. It is rightly regarded by many people as the leading UK centre for further and higher education in the subject.

Career Opportunities

Past students have gone on to employment in grounds maintenance as well as working as grounds staff, climbers or supervisors for arboriculture contractors, private contractors and local authorities.

Arboriculture

City and Guilds Level 2 Technical Certificate

The Level 2 Technical Certificate is an excellent introductory study programme for students wishing to further their knowledge of tree care.

It is extremely popular with school leavers and provides practical knowledge and experience, combining this with an academic study of the principles of arboriculture.

It is designed to give you a broad understanding of the subject, with a view to progressing to our Level 3 Advanced Technical Certificate programme, or to start work in the industry.

Students undertake a range of units which cover environmental and land-based business (finance, marketing and business analysis), an overview of the arboriculture sector (tree climbing and general tree work), tree and woodland ecology and an introduction to land-based machinery. A range of additional NPTC Award qualifications are available to students (some at additional cost), enhancing their employment prospects. These may include training and assessment in chainsaw use, climbing trees, performing aerial rescue and using manually fed wood chippers.

Work experience is a mandatory module that takes place one day per week within the local area to Ullswater Community College. It supplements the skills learned at College and is key to gaining employment in the industry. It is important that students find a suitable work placement before they start the programme. Further information about placements will be provided following your application.

Course Details

Location Ullswater Community College.	Additional Course Requirements A strong interest in tree care and forestry.
Duration 1 year full-time.	Assessment Practical assessment, assignments, coursework and exams.
Level Intermediate.	Progression Level 3 programmes in Arboriculture.
Academic Entry Requirements Students are normally aged 16 or over and have some level of achievement in GCSE or relevant Further Education qualifications and have gained a minimum of grade 3 (D) in two or more subjects, including English.	

Arboriculture

City and Guilds Level 3 Suite

The Level 3 Advanced Technical qualifications are popular options for school leavers and young adults. They combine practical-based skills with academic theory, classroom study and external visits.

Students will initially enrol on a one-year 9 unit (540) diploma before progressing on to a second year with an additional 9 units. The complete 1080 diploma is broadly equivalent to three A Levels, ideal for progression on to Higher Education University Degrees.

In the first year, students will learn about about plant and soil science, health and safety, land based machinery operations, estate skills, tree surveys and inspections, forestry establishment, aboriculture ground operations, tree felling and chainsaw use and the identification of pests, diseases and the disorders of trees.

Additional second year units cover business management in the land based sector, woodland habitat management, tree science, urban and community forestry projects, tree and shrub pruning and maintenance, advanced arboricultural practices and skills, a specialist project and the identification, planting, establishment and aftercare of plants

Work experience is a mandatory module that takes place one day per week within the local area to Ullswater Community College. It supplements the skills learned at College and is key to gaining employment in the industry. It is important that students find a suitable work placement before they start the programme. Further information about placements will be provided following your application.

Academic Entry Requirements Students are normally aged 16 or over and old an English GCSE at 4/C plus a minimum of three or four others at 4/C (depending on units studied), including Maths and Science.	Progression Higher Education Degree courses.

Transport options to Penrith

Travel
Bursaries
available

Ullswater Community College will be your base for most the week. It is located in the centre of Penrith, just off Junction 40 of the M6 motorway and the main A66 route, running West to East across the county. There are various routes to Penrith from across Cumbria. These include routes from Carlisle, Workington, Whitehaven, Keswick and Kendal.

On courses where a day's practical experience is timetabled at our Bilsborrow (Preston) campus, we will provide a free bus service from Ullswater Community College to Preston and back again at the end of the day.

To help with travel costs, learners are able to apply for funding up to £600, in a scheme generously supported by Eden District Council.

The bursary works on a sliding scale dependant on how far a student is located to the Penrith Centre and is available for both public transport costs and fuel costs. For more information contact studentfinance@myerscough.ac.uk.

By Bus*

Course Advice Events

Myerscough College hosts a regular series of Advice Events throughout the year.

College staff and tutors will be present to chat about the courses on offer, future career opportunities and the facilities and resources available to students. They'll also be able to advise about daily transport and financial support.

Ullswater Community College • Course Advice Events

Saturday 11th February	Course Advice Morning (On Campus at UCC) - 10am till 12 noon
Saturday 1st April	Course Advice Morning (On Campus at UCC) - 10am till 12 noon
Saturday 12th May	Course Advice Morning (On Campus at UCC) - 10am till 12 noon

Course Advice Events at our Preston Centre

Saturday 4th February	Course Advice Morning and Applicant Showcase - 10am till 1pm
Saturday 18th March	Course Advice Morning and Applicant Showcase - 10am till 1pm
Sunday 11th June	Open Day and Country Fair - 10am till 5pm

Please check the 'What's on' section of the College website for more details about each of these events and to book your place.

Additional full-time subjects at Myerscough College's Preston Campus

As well as Agriculture, Animal Studies and Arboriculture, Myerscough also offers a wide range of further land-based subjects, for which residential options are available to Cumbrian applicants.

These include Agricultural Engineering, Land and Wildlife, Veterinary Nursing, Equine Studies, Farriery, Floristry, Horticulture, Landscape, Motorsports, Photography and Sportsturf.

If you decide that you don't want to attend College full-time but would prefer to get a job, earn a decent wage and gain qualifications whilst at work, then we also offer a wide range of apprenticeship options.

Choose Myerscough

Make us your number one choice!

- STEM Assured Status
- A superb range of full-time and part-time courses across more than 20 different specialist land-based and sports subjects
- Multi-million pound centres for Agriculture and Animal Studies
- Awarded prestigious 'Leaders in Diversity' accreditation by the National Centre for Diversity
- Red Rose Awards winners in category 'Skills Provider of the Year'
- 97% of learners in employment or study within six months of graduation
- FE College of the Year at the 2022 Educate Awards
